

Umoora

Umoora is a post-rock band from Switzerland. Umoora's instrumental music is characterized by raw energy that is released after intense build-ups. The band is known for its ability to create intense atmospheres that are both powerful and introspective. Umoora combines impressive guitar melodies with driving rhythms that take listeners on an emotional journey. Their music tells stories without words, and each composition is a carefully crafted work that captivates listeners.

Umoora has released their new LP, "This Machine Will Kill Us" through Sixteen Times Music. This Album further explores the band's musical vision and develops their characteristic sound. Heavy Riffs and rythms meet cathartic meolodies. Dark but not hopeless. For epic-landscape lovers and riders of the storm, Umoora brings you both the landscape and the storm.
